Introduction

This Release Notes document summarizes the features, enhancements, and updates delivered with FlexNet Operations 2021.01 LLM delivered in January 2021. The document includes the following information:

- [Resources](#)
- [Features and Enhancements](#)
- [Resolved Issues](#)
- [Special Notes](#)
- [Legal Information](#)

Resources

These resources are available for more information about FlexNet Operations and other Revenera products:

- [Revenera Resources](#)
- [Previous FlexNet Operations Release Notes](#)

Revenera Resources

The following resources can help you stay up to date with FlexNet Operations news and product knowledge:

- In addition to providing case management, the [Revenera Community](#) site can help you quickly find answers to your questions by searching content from other customers, product experts, and thought leaders. You can also post questions on discussion forums for experts to answer. For each of Revenera's product solutions, you can access forums, blog posts, and knowledge base articles.
- You can find documentation for FlexNet Operations and all other Revenera products on the [Revenera Product Documentation](#) site.
- The [Revenera Learning Center](#) offers free, self-guided online videos to help you quickly get the most out of your Revenera products. You can find a complete list of these training videos in the Learning Center.
- For customers who have purchased a maintenance contract for their product(s), you can submit a support case or check the status of an existing case by making selections on the **Get Support** menu of the Revenera Community.

Previous FlexNet Operations Release Notes

To access the release notes associated with previous FlexNet Operations versions, perform either of the following:

- To view a compilation of the features, resolved issues, known issues, and system requirements for the previous 2020 R3 LLM release and its subsequent service packs, access the FlexNet Operations 2020 R3 SP2 LLM Release Notes at this location:

[FlexNet Operations 2020 R3 SP2 LLM Release Notes](#)

- To view the release notes associated with other previously released FlexNet Operations versions, access the following site and select the appropriate version:

<https://docs.reverera.com/>

Features and Enhancements

The following FlexNet Operations module contains a new enhancement in FlexNet Operations 2021.01 LLM:

- [Email Notification System](#)
- [Rebranding](#)

Email Notification System

The following enhancement to the FlexNet Operations email notification system is available in this release.

Merge Tags Added to Entitlement Allocation Email Template

The SKU_UDF and EXPIRATION_DATE merge tags are now available for use in the Entitlement Allocation email template. The SKU_UDF merge tag identifies the user-defined value for the catalog item; the EXPIRATION_DATE shows the expiration of the order line. The following example shows how these merge tags might be used in the template.

```
Thank you for your Order ID : [[ORDER_ID]]
Order Note: [[ORDER_NOTE]]

Account Details:
Account ID: [[TARGET_ACCT_ID]]
Account Name: [[TARGET_ACCT_NAME]]
Account Note: [[TARGET_ACCT_NOTE]]

Order Details:
[[FOR-EACH TAG="ORDERLINE"]]

Order Line Number : [[LINE_NUMBER]]
Allocated Qty: [[SPLIT_QUANTITY]]
Catalog Item ID: [[SKU]]
Catalog Item Description [[SKU_DESCRIPTION]]
[[IF TAG="SKU_UDF" CODE="TRIAL" VALUE="YES"]]
Thank you for ordering our trial catalog!
[[END IF]]
Activation code : [[FNP_ACTIVATION_CODE]]
Expiration: [[EXPIRATION_DATE]]

[[END FOR-EACH]]
```

Rebranding

In 2020, FlexNet Operations became a product of Revenera, a new division of Flexera Software. The process is currently underway to rebrand the product, user documentation, and related artifacts to display the new Revenera logo (replacing the “Flexera” logo) and to redirect links to the Revenera Community and other Revenera-related sites. The FlexNet Operations product name remains the same.

Resolved Issues

The following issue has been resolved in this release.

Changes to Line Items Not Shown on License Server

Previously, in some cases when a line item was updated (such as extending an expiration date), the changes to the line item were not seen on the relevant license server. The situations causing this failure to update the license server have now been resolved.

Special Notes

The following section contains special information pertaining to FlexNet Operations.

Special Requirement for Using High-Speed File Upload Functionality

If you intend to use the high-speed upload option to upload files, upgrade the Aspera plug-in to Aspera Connect 3.10.0 or later.

Best Practice for Uploading New File Versions for Electronic Software Delivery

The following practice helps to prevent the delivery of “stale” file content to your customers.

When you upload a new version of a file (or package) whose previous version exists in the Electronic Software Delivery system, best practice is to give the new file version a unique name, different from the name of the existing file version. (For example, use a version number in the file name.) Try to avoid simply uploading a file using same name as the existing file so that the existing file is overwritten.

However, if you must upload the a new file using the same name as the existing file, delete the existing file and wait 10-15 minutes before uploading the new version. This process will reduce the probability of re-caching the old content.
